

Blades made from "Tillage Steel"

Into every Ingersoll Shovel Blade goes over a half century's experience in producing superior STEELS for working in soil. That's why we say . . . "Ingersoll Shovel Blades are Born in the Soil." That's why they stand punishment and hold their cutting edges better without curling or splitting. This TILLAGE STEEL, especially produced by the world's largest manufacturer of plow discs and harrow discs, is known as . . .

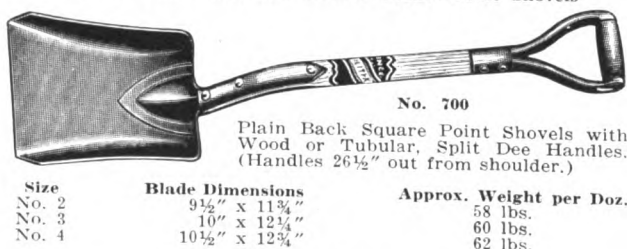

TEM CROSS
INGERSOLL PROCESS STEEL

It is cross-rolled to give an interlocking mesh-grain construction. It has remarkable toughness, developed to withstand severe tillage use.

INGERSOLL Shovels

"THE BORG-WARNER LINE"

The Ingersoll Steel & Disc Division of Borg-Warner Corporation operates its own steel mills. Therefore, when you specify any one of the Ingersoll Brands shown by the labels below, you are assured of a product that is completely under the manufacturing control of this Company. Uniform high quality and top value at the price may be depended upon in Ingersoll Shovels of all types and grades. On all orders specify Ingersoll Shovels, and give your customers the benefit of the better service and satisfaction they give.

- All grades of Ingersoll Shovels, Spades and Scoops are **heat-treated** (except some "C" Grade, and lower) without any extra charge.
- All Ingersoll Shovels, Spades and Scoops are covered by the standard guarantee.
